Dear Mr. Lim:

This letter is to confirm that the correct online publication date for the article *Regulating genes with electromagnetic response elements* by Hana Lin, Martin Blank, Karin Rossol Haseroth, and Reba Goodman in the *Journal of Cellular Biochemistry* (Volume 81, Issue 1 Page 143- 148) is February 9, 2001. There was a typographical error on the first page stating that the article was published on "December XX, 2000." We are in the process of correcting the PDF of the article to reflect the accurate online publication date. As soon as the corrected version of the article is posted on *Wiley InterScience*, we will let you know.

Should you have any further questions about this matter, please do not hesitate to contact me.

Sincerely,

Colette E. Bean
